

LEGENDA

The schematic diagram illustrates the layout of sewerage infrastructure along the urban boundary line. It includes a legend for symbols: black dots for the urban boundary line, yellow dots for the urban area boundary, blue rectangle for PPV (Pump Station), green rectangle for protective zone, blue circle with B for manhole, blue circle with VT for water meter, red rectangle for sewage treatment plant, and green rectangle for collection system. The main part of the diagram shows the layout of the sewerage system, including the main sewer line, manholes, water meters, and the sewage treatment plant.
